

Hire and Rental Industry Association

WHY HIRE?

- 1 LATEST EQUIPMENT**
Hiring gives you access to a huge range of the latest equipment. Trial new equipment and ensure you are always using the right equipment for your job.
- 2 ENSURE EFFICIENCY**
When you hire you are speaking to experts who can help you choose the right equipment for your job. Once the job is complete the equipment can be returned, no need to worry about whether that piece of equipment will ever be used again.
- 3 CONTROL COSTS**
Don't worry about machine maintenance costs or tying up your capital. Hiring equipment is also fully tax deductible which makes good business sense.
- 4 SAVE TIME**
Hiring means you don't have to spend time updating and maintaining machinery. Get instant access to the equipment you need when you need it.
- 5 SAVE MONEY**
Owing equipment is expensive. By hiring you will always have access to the latest equipment without worrying about repairs, upgrades and borrowing costs.
- 6 SAVE SPACE**
No need to worry about storage sheds, yards or equipment sitting idle. Hiring means you can return the equipment as soon as you are finished using it.
- 7 SAVE THE ENVIRONMENT**
Equipment that is purchased often sits idle for long period of time. People are increasingly conscious of their carbon footprint therefore hiring makes sense for the environment as well as your business.
- 8 ENSURE SAFETY**
When you hire, the equipment comes inspected and ready to go, ensuring it always up to standard and meets regulations.
- 9 PROTECT YOUR STAFF**
All hired equipment is thoroughly checked prior to each hire and electrically tested and tagged as required.
- 10 SERVICE**
When you hire you don't need to worry about delivery, spare parts, accessories and more – you just want the equipment to be there on time and to work.
